

PLUS X AWARD®

The Plus X Award, prize for innovative technologies, sport and lifestyle products, is in its 13th year in 2016 and honours manufacturers for their quality advantage. Albert Einstein once said: “More than the past, it is the future that interests me, since that’s where I intend to live.” With this principle in mind, the Plus X Award distinguishes products that are innovative and viable for the future and possess at least one “Plus X” factor – the additional value of a product.

In 2016

## Lux S115

achieved the prestigious  
German Plus X Award
